The Wyoming convention is now discussing the proposition to include God said, in substance, that there was a and the Australian election system in great diversity of opinion among the new state constitution.

Ir would be an excellent advertising proposition for the whole of Central and Southern Arizona, for the several counties making reports to the irrigation committee to have about ten thousand copies of their reports printed for free distribution to home seekers. Let every county issue its own report, or join issues with one or more neighboring counties and publish under one cover. Better advertising material was only profitable disposition that can never compiled.

to advertise the resources of the Territory than all the Commissioners combined have done since the days of Hon. Pat- of a misfortune, as they do not realize rick Hamilton. Ever since he assumed half so much for them and have the the duties of his office he has worked continuously for the good of Arizona. No one particular county has had his exclusive attention but it has been given and engineer, who lived here for eight to the Territory as a whole. We have said this before and unhesitatingly repeat it that when John A. Black secures the full possession of his office to which he was lawfully oppointed, we will be much mistaken if he does not speedily demonstrate to the country his fitness for the office entrusted to his keeping.

WE hope for good results from the Committee that will inpect the proposed route to Globe. If on their return a favorable report be made we have no doubt but that the entire amount needed to build the road will be speedily raised. Every property holder and bus ness man in Tucson is interested in the work, as is also the county at large. A tion, the rate being \$140 per car from good wagon road built through Pima, Pinal and Gila counties will do much to from Winslow, from which latter polar develop the country and facililate the Mr. Campbell ships. - Courier. transaction of business. No road can be opened between any two towns in the Territory that does not contribute its full measure to the development of the country. In the present instance the boards of supervisors of the several counties interested will in all probability contribute something towards the proposition and private enterprise can be depended upon to furnish whatever else be needed.

THE results of the recent visit of the Senatorial Committee has been to collect and condense about all the facts obtain able concerning the present condition and progress made by the Territory Nothing, perhaps, is contained in a sin gle report, that has not been previously printed in the local newspapers, but their compilation offers a splendid opportunity for sending out to the world oficial information concerning this Tertory. The Commissioner of Immigration could find no better material for a pamphlet than the reports of each county on the subject of irrigation and reclaiming arid lands. They all contain the facts as to what has been already done in that direction in Arizona, and this is what the people want to know before going to a new country. What has been done is indisputable. What can be done is yet in the future.

A CALL signed by the chairman of the republican and democratic county committees of Maricopa county, has been issued "to confer as to what action shall be taken if any, in the premises" on the refusal of Governor Wolfley to request for advice and opinions. Your call a constitutional convention. It is outcry, gentlemen, will not alter the res supposed to be the purpose of said Marrely upon it that the Governor has comicopa county committees to take the bit in their own mouths and issue a call plied with them in not calling the con vention. whether the governor will or not. The project was set afoot by the Democratic committee who invited the republicans to a conference. We await with breathless suspense the result. We are glad of money, succeeded in counting out the the call has been made, and we further Hon. Nathan Goff as governor of West hope that the democratic chairman of Virginia. That such would be the care the Maricopa county central committee was a foregone conclusion notwithstandwill cordially invite participation in the ing that General Goff was fairly elected conference by other counties, as we are and was entitled to his seat as Governor anxious to see how many of them will The next big contract on the hands of haste to respond. We are pleased to the democracy will be to count out Gen see this Maricopa county conference eral Mahone as Governor of Virginia movement put afoot, as by this means it but we question their ability to do i will be shown that while the proposition The Republicans of Virginia, profiting for a constitutional convention lies near by the experience of their brethren, in to the hearts of a few aspiring and un-West Virginia, will battle desperately principled politicians, it finds no favor for success. If beaten legitimately at the with the people. This fact we have dempolls they will take their defeat like onstrated and we are willing to stand on men, but we do not believe it possible the issue. But by all means let the call for the democrats to fraudulently count for a conference be made general; it will them out. cost the Territory nothing, and we are willing to wager that there are not two counties in the territory that will respond with both party committees. The whole thing is a roaring farce, and as such it will be proven if the wet nurses the indications are that the school will of the movement undertake to play their be an improvement on any former one little game in other counties. The peo-Thirteen teachers are now employed, ple don't want it and won't have it.

THE Maricopa county committees that October. If the primary school is esare to settle the statehood question, will tablished in Buell's addition two more meet on Saturday next. The plan of the teachers will be needed. Gazette is a combine of the republican and democratic county central committees, and through them a call is to be made for a constitutional convention. but the Herald proposes to have the call made by counties as was done in Wyoming. Either plan will suit us, as either one will show the temper of the people tained without ruining the constitu-But right here we wish to remark that tions and forbidding the home pleasures of the hapless people obliged to comboth the pet schemes aforementioned ply with them. A Courier man called on Hon. John G. Campbell yesterday to learn the SATURDAY SEPTEMBER 14, 1889 status of the cattle market in the East, he having recently returned from a trip to the great cattle marts. Mr. C. men who had been in the cattle business for twenty years or more, some thinking there would be no change for the better in future prices. while others held an opposite opinion; but, a careful ca vass of the matter showed that a large majority of them thought prices would range higher late this fall. That there are a number of cattle in the country now and the coming demand will be for feeders, as

unusually large crops have been raised in Kansas and Missouri, and the be made of them is to buy cattle and feed over winter. That the farms COMMISSIONER J. A. Black will do more of that whole section of country are hopelessly mortgaged and the farmers regard their large crops in the light cost of harvesting a double quantity for the same or less money. That, at Kiowa he met a Mr. Randell, an old Prescottite or ten years, but who is now a rea estate agent, who gave him the true in sight into the deplorable condition of the tillers of the soil thereabouts; told nim of ten quarter sections adjoining each other, and all improved, that could be bought for a slight advance over the mortgages; that most of the mortgage are about matured and numbers of farms could be bought for an advance of from \$25 to \$50 over the mortgage; that plenty of good land could be bought for \$4 an acre. In past years shelled corr brought from 1S to 25 cents po cwt. It now sells for 121 cents. There

A wreckage came ashore yesterday bearing the name "Philadoux." you get of her teeth strikes you as disa grecable, although they may be white, early and even. Did you ever guess

New York, September 12—The Na tional Line steamer England, from Liv-erpool, arrived to-day after one of the roughest voyages it ever encountered At midnight, Tuesday, one of the fireme was washed overboard and drowned The England was struck by the storn Tuesday evening. The wind and ser were something terrible. Capt. Heal DAGGETT, Cal., Sept. 12.—Harry Dod son, who knocked J. L. Patterson, sup erintendent of "Runover" mine off his horse and robbed him of five thousand ollars a few days ago, was overtaken by Patterson and John Ackerman nes Coyotehole last night. He commence hooting at them and they returned fire hitting Dodson nine times, killing his instantly. The stolen money was found

BALTIMORE, September 12.—The storm has practically killed the Balti-more celebration for two days and tolay not much better. The feature o-day will be a sham battle off North To-night (speeches will be de livered by members of the cabinet and ther prominent persons.

Lynchburg, September 12.-An acc dent occurred in the Jellico coal mines Tennessee, yesterday morning. Eightteen men killed. Particulars meagre.

Lewesder, Sept. 12.—The scene alon he coast here is terrible. The wind olowing almost a hurricane through mist of spray, tattered sails, and naked masts of a score of vessels dimly seen Since Monday night the storm has raged without abatement. Yesterday the sea broke over breakwater and rush ed shoreward, sweeping away a number of piers and the United States marine ospital, and flooded life saving station Hazevville suburbs between the town and beach, are submerged, and i s 200 inhabitants have fled for life. Several boats came ashore during the morning Life-saving crew reinforced by Henhope and Echo; both crews have labored al most unceasingly. The crew of every essel that struck were taken off by the daring men, and not a life lost amon he score of men they handled. 27 vessels came ashere here. Total number of lives lost about forty. Five of eight men who composed the crew the E. & L. Bryan perished where vess struck on Brandywine shoals. concern is felt over the crew of the pilo oost Ebe Tunnel. She put out to sea donday and has not been heard from. Four pilots and a crew of eight men on board. The coast for miles down is re-

ported strewn with wrecks. Three schooners lost outside the apes. A coloreo man and a German have come ashore as survivors fro these wrecks. They were on a raft for y hours. The other fifteen, who composed the craws of these schooners, are given up for tost.

ATLANTIC CITY, N. J., September 12-It will take a month for this city to re cover from the losses which the storm caused. The wind still blows 35 to 4 miles an hour.

Washington, September 12.—Con missioner Tanner's letter of resignation is made public. He says: "Differences which exist between the Secretary the Interior and myself, as to policy to be pursued in the administration of the ension bureau, have reached a stage which threatens to embarrass you to an extent to which I feel I shall not call upon you to suffer." President Harrison, in reply, accepts the resignation to take effect when his successor is qualiyour honesty has not at any time been given value which must be paid the owner called in question, and I beg to renew expressions of my personal good will.

Washington, D. C., September 12. No change in the position of the storm on the Atlantic coast. The storm concentrates at Norfolk where it has been since Tuesday morning. High winds on the coast will continue during to-day.

Very Risky Indeed. To tamper with symptoms indicative

of growing kidney disorder; to neglect for a brief time needful stimulation of the renal organs when their inactivity oints, as it always and unmistakably is however a risk that many persors another Swiss cheese weighing 220 pounds perceptibly drifting into Bright's disase, diabetes, catalir of the bladder &c., ger beer. Prices reasonableconstantly incur. So those who read, Darum. reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a divret-, need scarcely more than a suggestion. No fact is more generally admitted by the medical profession and the public than its efficacy for the prevention of serious renal disease. The unmedicated excitants of commerce, no matter how pure, bear in mind, react prejudi-cially upon the kidneys when inactive. The bitters subdues malaria, constipation and rhoumatism

At the Union market on Congress street may always be found the T. are out on a strike on account of the meats to be had in Tucson. Beef, mutpoint. None but the best is kept, and FASHIONS IN TEETH.

Twenty-third street dentist's office, are about 150 human teeth mounted on thin steel swivels about two inches long. A other day, holding with both hands a out of his head, it ached so bad, stared at the ring and wondered if it held trophies of the doctor's art, and if the jumping tooth would soon be added to the collec-tion. The dentist in the meantime was fair woman nationt who sat in the big chair of torture. Pretty soon he took the ring of teeth from the wall, and the man with the jumping bi-cuspid saw him go seedingly strange. He stood in front of his patient and, selecting a tooth from the ring, he would hold it by the side of her face, and then look at her as though he were in some impossible way contemplat-Finally he made an entry of some kind in Tuesday, and hung the ring up on the

what was the matter? "The trouble was that the woman's false teeth, though excellent in every

other way, no doubt, and costing a sum that probably made her husband wince, were not of a tint to suit her complexion I know of recores of women, and no doubt there are thousands and thousands of them in New York, who have uncon-sciously made perfect spectacles of them selves that way. Now just think how a woman with black hair and an olive complexion would look with perfectly white teeth. The effect is the ghastliest thing you ever saw, when you come to think of it. Yet I'll bet there are 10,000 black haired women in New York who are wearing false teeth as white as a sepul-chre. Then what would you think of a londe with blue eyes and light hair and yellow teeth like these? That would look nice, wouldn't it? Well, just notice how many blonde women you see disfigured in just that way. Think of the spectacle a red headed woman makes when she opens her mouth to laugh and shows the teeth some blacksmith of a dentist made as yellow as a South Brooklyn ague victim! It is dreadful to all persons of cultivated

sensibilities. Dark complexioned persons should have teeth of about this shade," showing a yellowish tinted tooth on the ring. "Light complexioned persons should have lighter tinted teeth. Red headed persons look best with a sort of gleaming white that is not just a dead white, but

is not at all vellow. An old man with a wrinkled skin and gray hair looks hideous with white teeth. It's unnatural, and I think that even the East river oysters must know that such a man has false teeth, and ill made false teeth at that. The way we do now is to notice the complex ion carefully, and then strike a tint that agrees with it. These teeth that you see on the ring are made of porcelain They are of every shade and variety of tint known to the profession. Each one is numbered. As soon as we find out the shade that is wanted for a customer we send the number to the factory, and the

whole set is made of that tint. "That's a considerable advance in the dentists' art, but it is small compared with some other things that have been accomplished since the days when talse teeth, plate and all, were all carved out of a solid piece of ivory.'

"When was that?" "About a century ago. There is such a set, or, rather, two such sets, one for the upper and one for the lower jaw, that vere made for George Washington, in the possession of a New York dentist. They were carved with almost infinite later out of solid ivory. On each side at the back were little gold springs that kept pressing the two sets apart. That prevented their slipping out, but made them terribly tiresome to the unfortunate man who wore them, and if he ever went to sleep with them in his mouth they pried his mouth open and made him snore. They were very clumsy teeth, we would think, and only to be used on state occasions."-New York Commercial Advertiser.

Since the laws prohibiting defacing natural scenery were enacted the adverregular staffs of painters to very small proportions. Before that time they em-ployed gangs that were as emulous, reckess and irresponsible as the attaches of a railway advertising car. The risks the ook to danb their letters on some promiest but almost inaccessible crag made willing stories when they gathered of vinter nights to swap lies around the lazing logs. It was a life of hardy adventure that was very attractive to enter prising young fellows, and many took to it for that reason alone. Latterly, however, it has been reduced to a better sys fied and says: "So far as I am advised tem. Nearly all prominent places have

SEAUTY IN THE FOOT. fot an Unimportant Matter in the Mak up of a Perfect Woman. "The girl of the period," generously mys a prominent chiropodist, "is devoting herself more and more to the study of her foot. She has found out that this ustrument is capable of almost as much development for strength and beauty (really synonymous terms) as her hand. She knows that the splendid exercise of

piano playing, in which each finger and

every muscle of the hand, wrist and arm

is developed to the greatest state of elas-

ticity and to beauty's own moldings, con-

tains the very hint she wants to follow

in the development of the foot. No. she

is not going to play the plane with her

feet, but she is going through a lot of

gymnastic exercises with them. She sits

on the bed every morning working her

toes, then she walks around the room on

her hare toes, and straightening out her

ankle, like a ballet girl, with every step,

as possible in all different directions,

like the pianist practices his hands on

technicon. They are very awkward at

first, just as the fingers would have been

people's fingers are. She is no longer a

detim to the foolish prejudice against

spreading her foot out on the floor. She

s no longer a victim of the illusion to

he eye, ignorant of art, that littleness is

beauty. She no longer desires a set of

oramped toes, but sprends them out on

the floor and tries to make them assume

the square, beautiful proportions of the

"In fact the foot development craze

with the fashionable progressive girl of

the period may be called the 'baby foot'

craze. These exercises of the foot and

toes make them able to spring twice as

far off their feet. She is constantly seek-

ing better shoes. She is doing just the

reverse of what she used to do when she

fought with her shoemaker because the

shoe was not tight enough. She is now

constantly fighting with him to get them

broader at the toes, and many a girl who

a proud of her new sensible, progressive

idea will hold the toe of a broad shoe in

view for you in the street cars, at home

"Many jokes are cracked on the corn

and are laughed at by the boys for walk-

ing pigeon toed, when they never notice

tep. They thus find when the foot lights

ow it crosses in upon the vertical plane

which the other foot must reverse for its

movements. They thus see how the legs

are not hinged quite properly, and learn

to move them in parallel planes. Step

ping forward and backward toward the

mirror will frequently correct pigeon toed walking."—Philadelphia Inquirer.

Artillery in the Future

As the range of guns in the field is

ugmented battles will more than ever

e prepared by cannon, batteries will

open fire at distances of miles, and the

dversary's batteries must, at least, be

veakened before infantry can venture

to advance, except under very peculiar

ircumstances. The power of modern

annon is so tremendous that, when hos-

tile batteries come into conflict at any

thing like reasonably near distances, viz.

from 1,500 to 2,500 yards, the duel can

carcely last long. We shall see no can-

onades like that directed against La

Haye Sainte, which lasted for hours, and

the victory will belong to the artillery

chiefs who, with anything like an equal

ity of force, lay their guns best, take

most accurate aim, avoid salves and

wild discharges, take care that their men

are not hurried, and, above all, can en-

filade their enemy-a process now more

For the reasons to which we have re

ferred before the system of artillery re

erves should be given up as completely
